Present Age of the Earth. The present age of the earth has been placed by Sir William Thomson at 100,000,000 years, while the speculations of others have given much larger figures. There are, however, good grounds for regarding 10,000,000 years as a moderate estimate. Scientists concur in thinking that this is but a small part of the earth's existence, and everything leads to the belief that its total evolution through the immensity of space will exceed a million centuries.—New York Commercial A-Exchange.

A \$1,700 HOUSE.

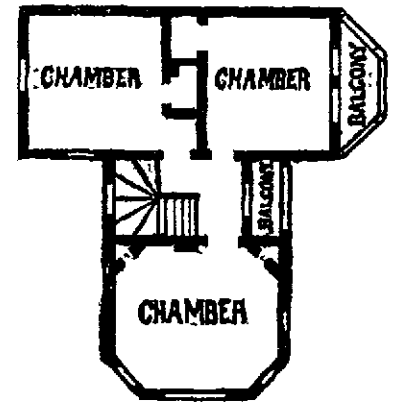

Two Modifications of the Same Plan That Will Be Interesting. From that admirable little book, Artistic Homes, published at Detroit by the American Building Plan association, are taken the

PLAN A—VIEW. following cuts and description of two modifications of the same general plan, the estimated cost of a house built according to either of them being \$1,700:

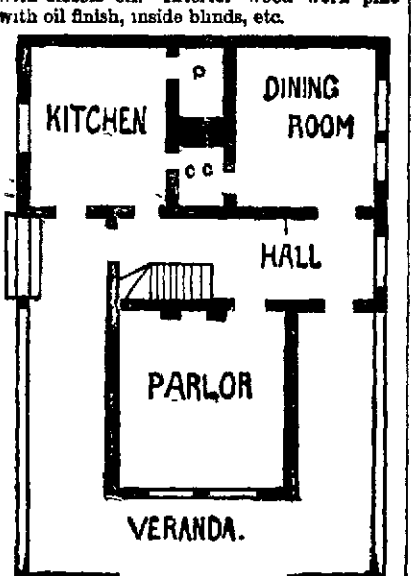

PLAN A, Frame Two Story Dwelling with stone foundation—Height of stories in the clear: first, 10 feet; second, nine feet six inches; cellar, 6 feet 6 inches. First story

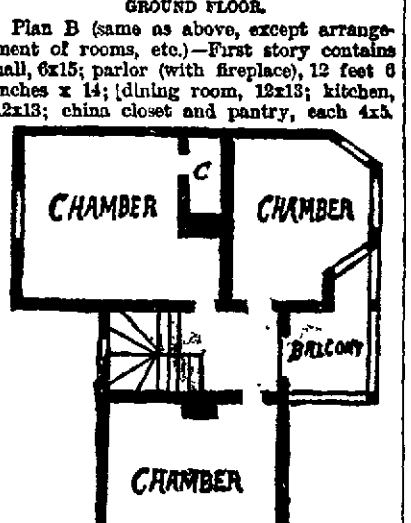

SECOND STORY. contains hall, 6 feet 6 inches x 14 feet 6 inches; parlor (with fireplace), 14 feet 6 inches x 15 feet; dining room, 12 feet 6 inches x 13; kitchen, 12x13 feet 6 inches; pantry

PLAN B (same as above, except arrangement of rooms, etc.)—First story contains hall, 6x15; parlor (with fireplace), 12 feet 6 inches x 14; dining room, 12x13; kitchen, 12x13; china closet and pantry, each 4x8

SECOND STORY. Second story contains three chambers, 12x13; 12x13, and 13 feet 6 inches x 14, with closets off.

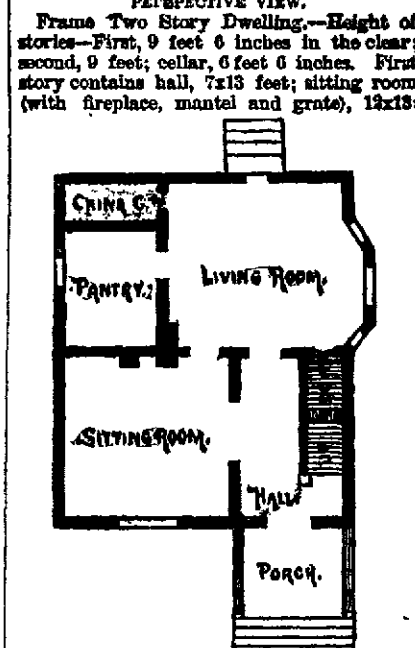

The Theatrical Manager. There is no more assiduous public power than the theatrical manager. Two centuries ago his craft began to feel the public pulse. No one knows better than he the importance of keeping his star continuously before the public. "Life" has a clever cartoon, in which an actress is disturbed in her boudoir by the entrance of a footman who announces a caller. "It is the Prince of Wales," says the footlight autocrat, "I'm not at home." "It's a soap manufacturer," responds the jockey. "Show him in!" is the gracious behest. Devices to attract the public eye are endless, but in no instance is the supremacy of the newspaper as an advertising medium omitted.—Exchange.

A THOUSAND DOLLAR HOUSE.

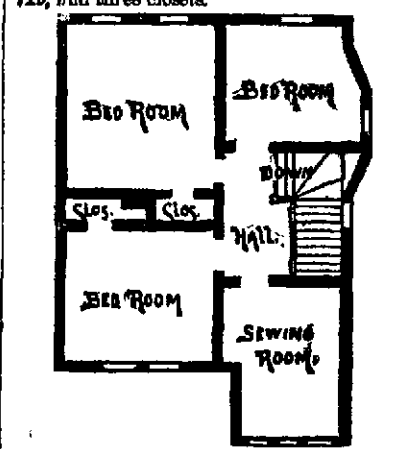

Plans and View of a Two Story Frame Dwelling. From Artistic Homes, issued by the National Building Plan association, Detroit, Mich.

PERSPECTIVE VIEW. Frame Two Story Dwelling—Height of stories—first, 9 feet 6 inches in the clear; second, 9 feet; cellar, 6 feet 6 inches. First story contains hall, 7x13 feet; sitting room (with fireplace, mantle and grate), 12x13;

FIRST FLOOR. living room, 11x14, large parlor and china closet. Second story contains three bedrooms, 10x10, 10x11 and 10x12; sewing room, 7x9, and three closets.

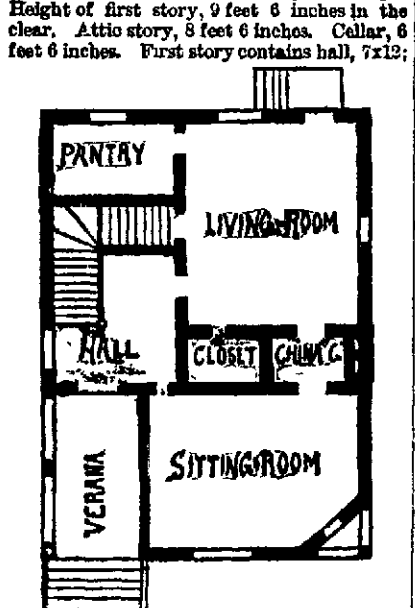

SECOND FLOOR. First story, clapboards; second story, shingles. Estimated cost of building, \$1,000.

AN \$850 HOUSE.

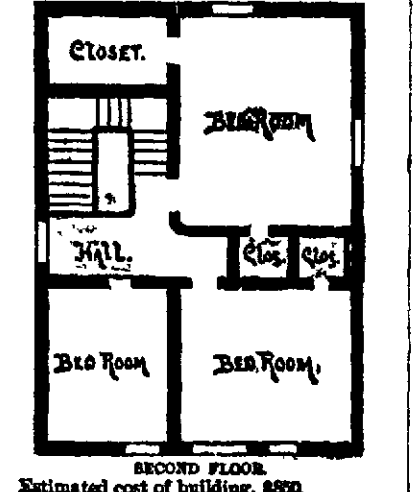

A Neat Story and a Half Structure Planned and Described. From "Artistic Homes," issued by the National Building Plan association, of Detroit, Mich.

PERSPECTIVE VIEW. Frame One and a Half Story Dwelling—Height of first story, 9 feet 6 inches in the clear. Attic story, 8 feet 6 inches. Cellar, 6 feet 6 inches. First story contains hall, 7x12;

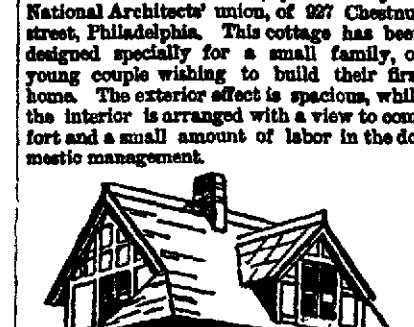

FIRST FLOOR. sitting room, 12x15; living room, 11x14, with large parlor and china closet. Second story contains three bedrooms, 7x13, 11 feet 6 inches x 12, and 11x14, with three closets.

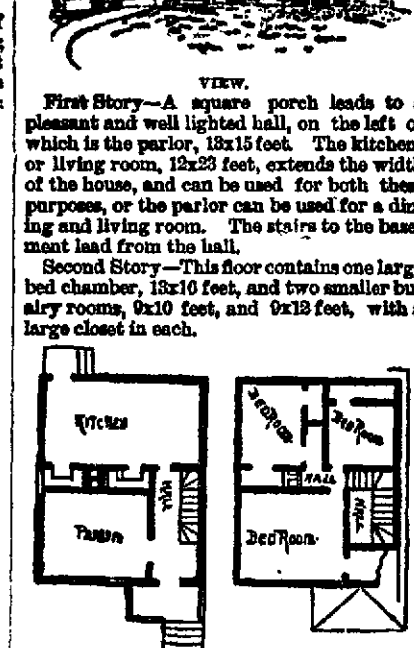

A \$950 COTTAGE.

A Cheap and Tasteful Home for a Small Family. The attractive cottage shown here is taken from an admirable book of designs entitled "Sensible Low Cost Houses," published by the National Architects' union, of 227 Chestnut street, Philadelphia. This cottage has been designed specially for a small family, or young couple wishing to build their first home. The exterior effect is spacious, while the interior is arranged with a view to comfort and a small amount of labor in the domestic management.

VIEW. First Story—A square porch leads to a pleasant and well lighted hall, on the left of which is the parlor, 12x13 feet. The kitchen, or living room, 12x23 feet, extends the width of the house, and can be used for both these purposes, or the parlor can be used for a dining and living room. The stairs to the basement lead from the hall.

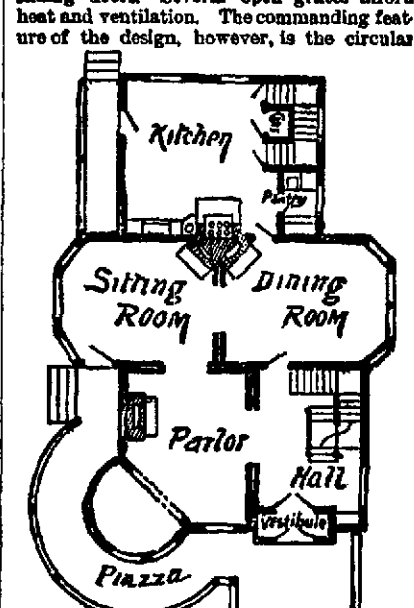

FLOOR PLANS. Materials—Foundation, rough stone or brick; frame construction; first and second stories and gables, clapboarded and paneled; roof shingled. No attic—air space only. Basement under main walls. Price, complete, \$950.

THIS WOULD COST \$7,500.

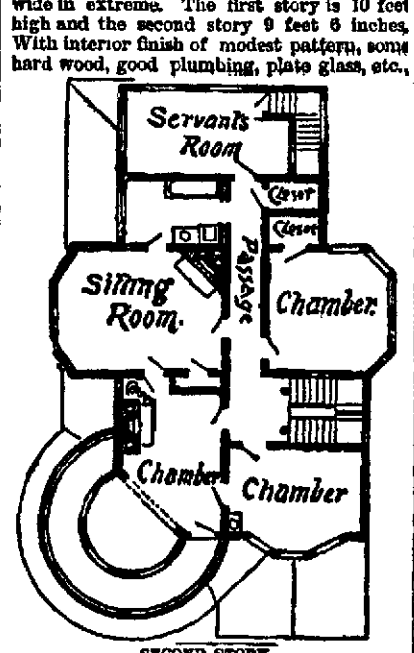

Design for a Spacious and Convenient Modern House. The accompanying illustrations from The Boston Globe show the first and second floor plans and perspective view of a modern dwelling, of rather unique design. The cut up of the rooms is quite simple, yet affords

VIEW. good accommodations. All the principal rooms on the first floor may be thrown into one large apartment by means of the wide sliding doors. Several open grates afford heat and ventilation. The commanding feature of the design, however, is the circular

GROUND FLOOR. tower, with its concentric piazzas and balcony. The house is 60 feet long and 41 feet wide in extreme. The first story is 10 feet high and the second story 9 feet 6 inches. With interior finish of modest pattern, some hard wood, good plumbing, plate glass, etc.

SECOND STORY. It would cost about \$7,500 to build in the vicinity of Boston. The plans were prepared by Architect Frank L. Smith, 23 School street, Boston. It has been calculated that the railroads of the world are worth nearly three hundred billions of dollars, or about one-tenth of the wealth of the civilized nations, or more than one-quarter of their invested capital. At this rate, all the ready money in the world would buy only about one-third of them.

C. C. FOWNING, Editor and Proprietor

At the present time Philadelphia has 825 1/2 miles of private wires and 57 1/2 miles of city wire underground. The cost of burying the 57 1/2 miles of city wire was only \$5,294 70—a small outlay when the permanency of the undertaking is taken into consideration. The system has worked admirably. The companies protested at the inception of the scheme, but they are now well satisfied with the results. Wind and snow storms, sleet and rain, which do so much damage to telegraph lines, both in cities and in the country, are avoided. Denver authorities are also about to take the subject of underground wires in hand.

The Denver & Rio Grande is now laying a third rail in the Grand Canyon of the Arkansas. It has been completed as far as the famous Royal Gorge and will be continued to Parkdale. It is expected that the standard gauge track will be laid to Leadville during the winter.

The committee recently appointed by the Grand Lodge of Masons of California to find a suitable site upon which to erect a home for the orphans of Masons, have received an offer from Los Angeles to donate the land and erect a suitable building.

The Carnival Association of St. Paul, Minn., has decided to build an ice palace this winter. The City Council will be asked to appropriate \$20,000 for the structure, the remaining \$30,000 to be raised by subscription.

Amos J. Cummings, a well-known newspaper man, has been nominated by the Tammany Democrats of the Ninth District of New York to fill the vacancy in Congress caused by the death of Samuel S. Cox.

The amount of money distributed this year in the betting ring at the races on tracks near New York City is estimated by the Tribune at \$30,000,000.

The Mississippi Democratic Policy, Special to the Journal.

NEW ORLEANS, Oct. 19.—A Times-Democrat's Jackson, Miss., special says: The Republican State Executive Committee met here today to consider the withdrawal of General Chalmers from the head of the State ticket. The committee issued the following: "As Republicans of Mississippi we are compelled to withdraw our State ticket. We know our votes would be stolen and our voters driven from the polls, but we hoped in larger towns and cities at least a semblance of free speech might remain to us, but our candidates are not safely allowed to discuss or protest. For fourteen years—ever since the infamous Mississippi plan was adopted—our path has been marked by the blood of our slain, not only well-known leaders, who bravely died, but faithful followers known only in the cabins of the lowly. We refer not only to such well-known slayers as Kemper and Copiah, Clinton and Carrollton, Wabash and Vicksburg, Yazoo City and Leflore, but other nameless killings. These are Democratic arguments which crush us. We can do no more. We dare no longer carry our tattered and blood-stained Republican flag. We appeal to the nation. Is national law and honor but a delusion and snare when we rely upon the guarantee of the National Constitution, do we but bear upon a broken reed? If so, announce the policy boldly, and relieve us of further effort."

Opposed to Division, Special to the Journal.

NEW YORK, Oct. 19.—At the Episcopal Conference today the House of Bishops decided not to concur in the proposed division of California on the grounds that such division was opposed by a majority of the communicants and the diocese itself and because there were not sufficient resources to support such division in the new diocese.

\$25,000,000 CARPET TRUST

THE DISARRANGEMENT OF A DY-NAMO SETS FIRE TO A STREET CAR.

General Baum Appointed Pension Commissioner—Illinois Pythians.

Special to the Journal.

NEW YORK, Oct. 19.—Several of the largest manufacturers of New England, New York and Philadelphia met at the Fifth Avenue Hotel yesterday to discuss the situation of the carpet trade, and it is said, to take the initial steps towards forming a trust or combination of manufacturers. It is stated on what appears to be reliable authority that the promoters of the scheme have interested a majority of the manufacturers, considered as to amount of production, and that they expect to be able to control from 75 to 85 per cent. of the whole production.

There are said to be outsiders, whose interests would be seriously affected should a trust be consummated, who are inclined to regard the whole scheme as visionary and with no probability of being carried through. They argue that the number of manufacturers is too large to be controlled by any syndicate; that a trust, in order to be complete, would have to embrace the machinery manufacturers, the worsted spinners and the carpet weavers, and that the industry is too complex to be consolidated into a whole acting under one head. A carpet trust is among the possibilities, however, and it is said that German and other capitalists stand ready to put \$25,000,000 into it.

Illinois Knights of Pythias.

Special to the Journal.

CHICAGO, Oct. 18.—There were fully 500 Knights of Pythias present when the annual convention of the Grand Lodge of Illinois opened. The session was opened by James W. Patterson, of Joliet, Grand Chancellor, in a short address. The ceremony of conferring the degree of honorary membership of the Grand Lodge upon Past Vice-Chancellors was then taken up and occupied most of the afternoon session. Reports were read from the grand officers, all of which showed the order to be in a flourishing condition. The total membership to July 1, 1889, was shown to be 11,956, as compared with 9,961 at the same period last year. The total receipts for the year were \$16,148, showing a balance on hand of \$6,600. The convention will take three days to complete its work, and the forenoon session to-morrow will probably be given up to the election of officers.

Flames on a Street Car.

Special to the Journal.

NEW YORK, Oct. 19.—Shouts of alarm were heard from car No. 14, of the Fourth Avenue Electric Line, when it passed Delancey street at 9 o'clock last night on its way uptown. Instantly a puff of smoke shot out, followed by a tongue of flame. The car was pretty well filled, and the passengers got out in a hurry, the shrieks of the women passengers attracting a crowd which completely blocked up the street. The car proceeded to Stanton street before it stopped, when another burst of flame issued from it and the conductor stepped off to take measures for safety. He finally entered the car and found that the box surrounding the dynamo was blazing. He pulled it aside and discovered that the dynamo had shifted, setting the wood afire. The flame was speedily extinguished and the car proceeded on its way, not much damaged.

Tanner's Successor Appointed.

Special to the Journal.

WASHINGTON, Oct. 19.—The President today appointed General Green B. Baum, of Illinois, Commissioner of Pensions. Baum was sworn in at noon. General Baum is a native of Illinois, and served with distinction through the rebellion on the Union side. He was a member of Congress from 1867 to 1869, and Commissioner of Internal Revenue from 1870 to 1883. The appointment, though a surprise, is generally favorably commented upon. He is a prominent member of the G. A. R.

THE NEWS IN CHICAGO

CHICAGO, Oct. 19.—The appointment of Baum as Pension Commissioner was an unqualified surprise to politicians here, his name never having been mentioned in connection with the place. The appointment is generally conceded to be a good one.

THE NEGRO PROBLEM.

A MINING SALE WHICH PROMISES TO MAKE EUREKA BOOM.

Unmanned Engagement of Senator Allison—Dastardly Deed of a Negro.

Special to the Journal.

LOUISVILLE, Oct. 18.—The National Board of Trade, after two day's session, adjourned yesterday. Congress was asked to place restrictions on bridge building and to foster a merchant marine. At the evening banquet Henry Watterson spoke on the general state of the country. In conclusion he referred to the El Dorado—the New South—at length. Speaking of the richness of the fields to be opened up there, he added: "But what is the value of all this if we have not order and law, regulated by an intelligent and responsible Government? How shall it profit you, or us, or anybody, if it be not brought under the spell of that wizard's wand which we call civilization? And to whom shall this wand be committed—to the Anglo-Saxon, with centuries of enlightened freedom behind him, or to the African just emerged from slavery?"

"No one can comprehend the meaning of this great menace to the prosperity of the South who does not live there. It is not possible for it to be treated with wisdom by any other than local agencies. Cannot the thinking people of the North imagine, if they are unable to see, this? Can they not feel that they must trust the intelligence, the humanity, the Christianity of the South and the testimony of truly responsible Northern men who have gone South to deal with a disease which outside pressure has always aggravated and will always aggravate?"

"I struggled earnestly and long to establish the black man and his rights under the Constitution and its amendments, but I am filled with no vain illusions born of sympathy and ignorance. I am blind to none of the dangers that lurk among the shadows of this great cross, which, for some mysterious purpose, I know not what, has been put upon the South, but which I do know the South alone can break, as the South alone has borne it."

SENATOR ALLISON.

Washington Society Has Him Engaged to Be Married.

Special to the Journal.

WASHINGTON, Oct. 19.—The report of Senator Allison's engagement to a beautiful and accomplished young lady of this city is again in circulation. Those who have been intimately associated with the Senator are disposed to give no credence to the story, but their disbelief of the Senator's matrimonial designs has no firmer foundation than the fact that, as far as they are aware, he has not shown the slightest indication of tender feeling towards the sea of matrimony. The young lady is exceedingly beautiful, about thirty years of age, and the daughter of a former patent attorney. Rumor has also set the marriage for next Spring. Senator Allison resides in a fine residence on Vermont avenue, just off Thomas circle. Since the sad death of his wife the Senator's household has been presided over by his foster mother.

Crash for Eureka.

Special to the Journal.

EUREKA, Nev., Oct. 19.—The Diamond and Antelope mines, on Prespect mountain, Eureka district, have been sold to Richard McIntosh, of Salt Lake city, the amounts paid aggregating \$75,000. The purchaser will shortly commence the erection of a sampling mill. The sale was consummated by ex-Congressman Cassidy, and it is expected that it, combined with reduced rates of transportation on ore to San Francisco and Salt Lake City, will revive the camp, and bring a return of its riches in this and other States.

The Deed of a Miserable Negro.

Special to the Journal.

GREENVILLE, Ala., Oct. 19.—This morning a quarrel between a negro and a young white man named Roberts, resulted in the negro pouring gasoline over Roberts when another negro touched off the fluid with a lighted lamp and instantly Roberts was enveloped in flames. He ran wildly up and down the street, and was literally roasted alive. One negro has been arrested.

Punishing Boulanger's Friends.

Special to the Journal.

PARIS, Oct. 19.—The Cabinet has expelled Laisant, a Boulangerist deputy, from his position as an officer in the territorial army. This action is due to the statement made in a speech by Laisant, during the recent electoral campaign, that he would not take the field for France under the present government.

A Mill Blown Up.

Special to the Journal.

ANDERSON, Ind., Oct. 19.—A boiler in Walton's sawmill exploded this morning and the mill was torn to atoms. Horace Kahn and Walter Mingle were killed. William Rumley and Sam Cook were fatally injured. Four others were severely injured.

"MUST SEE HIM ALONE." CAN ONLY STOP FOR FEED.

THREE EDITORS RECENTLY ARRESTED FOR TRYING TO EXTORT MONEY.

The Little Speculation of Mr. Marks Busted By His Intended Victims.

Special to the Journal.

LONDON, Oct. 18.—Claude Marks and Sidney Wolfe, joint proprietors of the Mining Record, and Mr. Marx, of the Financial Times, were arrested today in this city and lodged in the police station on the charge "that they unlawfully threatened to print and publish a certain false libel concerning James Potter Ablett and Marons Bebro with intent thereby to extort money from them."

The first named gentleman is a brother of Harry Marks, of Financial News fame. The way it all came about is this: The Mining Record of Friday last published a leading article headed, "Bebro's Latest Love." It was an article dealing with the formation of the Crystal Reef Gold Mining Company (limited) and the supposed part taken in it by Marons Bebro. On Friday last Marx suggested that he could prevent further articles—which, he alleged, were already written—from appearing in the Mining Record on the payment of a sum of money. On Saturday some further remarks were published and another attempt was made by Marx to arrange for the payment of a large sum of money in order to stop further articles which were threatened. The sum of money mentioned was £500. The company was not fool enough to pay the money at once. Mr. Forrest Fultin, M. P., was consulted, with the result that Marks, Wolfe and Marx were led to believe that the money would be paid, and this afternoon a warrant was applied for by Mr. Forrest Fultin, on behalf of the directors of the Crystal Reef Mining Company, and obtained. It was a nice preconcerted plan. Bebro arranged to take Claude Marks, who told him that if £500 were brought to him in gold and not notes he would square it, and nothing should appear. Bebro wanted to take the solicitor of the company with him, but Marks said: "They must see Bebro alone and it must be with closed doors, and they must have it all in sovereigns, and if Jesus Christ himself went they would not take the money in any other way." Bebro, after a long consideration, arranged to take £500 today at 4.30 p. m., and the remaining £200 to-morrow. He went with the £500, according to agreement, and met Marks and Wolfe. The meeting was apparently a very friendly one until the advent of the detectives. The £500 were placed upon the table and Marks and Wolfe had counted over two hundred of them and were in the act of counting the third hundred when four detectives and two policemen entered and arrested them. The prisoners were brought to the police court to-day. The greatest excitement prevails in city circles.

ATTEMPTED ARSON.

A Dastardly Effort to Destroy a New York Tenement House.

Special to the Journal.

NEW YORK, Oct. 19.—A devilishly contrived scheme to burn the five-story tenement house No. 1,386 Avenue A early yesterday morning was foiled by the timely discovery of the flames. The house is one of a row of four tenements owned by Jacob Altschul, and containing apartments for eighteen families each. There are at present eighteen families living in the house. A few minutes before 6 o'clock Sarah Daval, the daughter of the housekeeper, Mrs. Abby Daval, went down to the cellar to take in the ash-barrels. At the foot of the stairs she smelled smoke, and going toward the front of the house found one of the woodhouses underneath Mr. Koehler's wine shop blazing fiercely. The girl ran upstairs and roused her mother and brother, who succeeded in putting out the flames with buckets of water without alarming the sleeping tenants.

After the fire was out the cellar was carefully examined, and the discovery was made that every particle of woodwork in the cellar had been covered with kerosene. On the floor lay a box of sulphur matches. The fire could hardly have been kindled more than a few seconds before it was discovered. Had it gained the least headway nothing could have saved the building.

A mysterious fire was discovered about two weeks ago in the apartments of Mrs. Englemont, who had been the housekeeper. It is said she has gone to Europe.

A Matrimonial Treaty.

Special to the Journal.

CINCINNATI, Oct. 19.—At Pine Springs this morning, Frank Tolliver married Grace Martin. The bride and bridegroom are sister and brother of the leaders of the opposing factions that for several years have been industriously murdering each other in that county. To-day's wedding seems to be a treaty of peace.

A Decision by the Interstate Commerce Commission Settles a Long-Mooted Question.

Special to the Journal.

CHICAGO, Oct. 19.—A decision of the Interstate Commerce Commission, which reached Chicago by mail, decides the whole question which for six months has kept the Chicago and Missouri river lines in hot water.

It will be remembered that the Alton withdrew from the Interstate Commerce Railway Association because it was getting a less proportion of the traffic than they claimed was due them. The main cause of the deficit was that the roads having lines west of Kansas City took the traffic east from Kansas City on a proportion of the through rate, an amount considerably less than the local rate the Alton and other roads with no lines west of the river were compelled to charge. To meet this rate the Alton gave notice it would shrink its local rates in all cases of through freights so that the shipper could send his goods to Chicago and the east via the Alton as cheaply as by a road having a trans-Missouri line. This action of the Alton practically nullified the benefit theretofore derived from Western extensions and caused the serious complications which have been so eagerly read of by railroad people for six months.

The decision of the Interstate Commerce Commission, which will settle this difficulty, is to the effect that any traffic unloaded at any point for any other purpose than continued onward progress becomes local traffic and must take the local rate.

It will be remembered that two weeks ago the Rock Island began argument on a suit before the Interstate Commerce Commission on exactly the ground which the decision covers. As a result, the Rock Island-Alton case being practically decided, selector Withrow, of the Rock Island, has notified the Commission that he would not continue the argument of the case.

The decision sustains the position always taken by the Alton, that shipments, such as cattle, unloaded at Kansas City for any other purpose than feeding and watering, must go forward at local rates.

It will prove a body blow for Kansas City, Omaha and other Western places where cattle have been unloaded for sale and then re-shipped by the new owner at a proportion of the through rate. The decision also annuls the time-honored practice of milling in transit.

Hereafter there can be no stopping in transit for other purposes than immediate re-shipment.

He Means Business.

Special to the Journal.

PHILADELPHIA, Oct. 19.—Oliver Speechless, the sugar refiner, arrived here from San Francisco, this evening. He will at once set to work making preparations for opening his big refinery here. Speechless said to-night that many false reports had been circulated to the effect that his new refinery here will never be opened by himself. He enters a general and unqualified denial to these reports.

Again Off the Track.

Special to the Journal.

SALEM, Or., Oct. 19.—The overland passenger train on the C. & O. railroad struck the north end of a partially opened switch at the junction sixteen miles from Eugene City. The tender and express cars, baggage cars and sleeper were derailed, but the fireman was the only one injured, he having his hips crushed. The escape of the baggage and expressmen was miraculous, as the cars were completely wrecked.

Chicago After the Fair.

Special to the Journal.

CHICAGO, Oct. 19.—All the American excursionists arrived here this evening. They were escorted in carriages to the Grand Pacific by the First and Second Regiments of the Illinois National Guard. Upon arriving at the hotel they were welcomed in a brief address by Mayor Creiger, and the body retired to rest.

Church Property Suit.

Special to the Journal.

CHAMBERSBURG, Pa., Oct. 19.—An equity suit was begun here today between the two factions of the United Brethren Church, which has been prepared as a test case and will, in all likelihood, decide the ownership of hundreds of valuable church property days.

WHAT OF EARTH

Is the reason people will not, can not or do not use any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at a real price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEECH'S BLOOD PURIFIER. BLOOD BLOOD MARKER and every bottle that does not do its work will cost you nothing.

IRRIGATION AND STORAGE.

The Interest Exhibited by Washoe's Citizens.

The second of a series of meetings pertaining to irrigation and the storage of water for the benefit of this section, was held at the Court House last evening, and attended by a large number of the most prominent men and largest taxpayers in the county. Judge Bigelow presided. Very able suggestions were made by Thos. Fitch, who also discussed the matter from a legal standpoint, and declared that the county could not extend its credit for the purpose of buying reservoir sites and storing water. Mr. Fitch insisted that the present ditch owners and business men of Washoe should do the work.

Mr. Newlands made extended remarks upon the subject, reiterating his willingness to provide the necessary funds to buy sites, etc., and do all in his power to endeavor to move what is here, and to build up the country for the future.

Mr. Fulton, Mr. Beck and Mr. Thompson also gave their ideas of the necessities of the situation. Judge Bigelow thought delays were dangerous, and that the people should not rely for aid from State or county, but having business to do, proceeded to do it. Finally, on motion of Mr. Fitch, the Chair appointed the following committee to report at a future meeting the best plan for the purchase of reservoir sites and the storage and distribution of water:

F. G. Newlands, Thomas Fitch, M. D. Foley, Wm. Thompson, R. L. Fulton, S. D. King, Jas. Mayberry, D. C. Wheeler and W. O. H. Martin, to which the Chairman, Judge Bigelow, was added.

NEVADA'S NEW RAILROAD.

The Union Pacific to Begin Its Construction in 1890.

The Virginia Chronicle asserts that the construction of a line of railway from Salt Lake, through Nevada to Los Angeles, is an assured fact. As heretofore stated in the Chronicle, the chief of the Union Pacific engineer corps recently passed over the Carson & Colorado in company with Superintendent H. M. Yerington and his assistant, R. J. Laws, to inspect the surveyed route south of Keeler, and a mining engineer is now inspecting the resources of the country along the route selected between Keeler and Los Angeles, for the purpose of reporting whether it traverses the most prominent mining districts.

The Chronicle has reliable authority for the statement that the construction of the proposed line will begin early in 1890. The line will pass within forty and fifty miles of Keeler, the present terminus of the Carson & Colorado, and the track of the road will be extended to connect with the Union Pacific.

NEW INVOICES.

For Ladies, Misses and Children—Something Elegant.

The Palace Dry Goods Store has just received an invoice of cloaks, wraps and jackets in saleties, cloth and Astrachan. The makes are Raglan's style—the most superb in the market. They also have Irish peasant cloaks, Modjeskas and saques of the very latest patterns and makes.

For misses and children they are now unpacking an invoice of cloaks far superior to anything ever brought to this city before by this sterling firm.

Last evening their store looked like a bazaar in a metropolis, the aisles being filled with ladies eager to inspect the latest importations and newest styles.

GEORGE W. CROCKETT DEAD.

A Prominent Nevada With the Silent Majority.

George W. Crockett, Junior, an attache of Wells, Fargo & Co.'s Virginia City office, received a dispatch from Austin yesterday morning announcing that his father, George W. Crockett, Senior, died there Friday night. Deceased had been a resident of the eastern part of the State for more than a quarter of a century and was agent for Wells, Fargo & Co. at Austin for more than 24 years, and latterly occupied the same position in that company's office in Texas. He served several terms as Treasurer of Lander county and was a man of unimpeachable integrity. Besides the son mentioned above, the deceased leaves a wife and three daughters residing in Austin.

Inyo Marble.

Following is the report of the Committee on Awards of the San Francisco Mechanics Fair of 1889: "The Inyo Marble Company of California is entitled to a silver medal for the best exhibit of white statuary marble. We also beg to invite attention to the admirable qualities of the exhibit. Here is seen a substance at our doors equal in purity, texture and workable qualities to the best statuary marble from the East and Italy. It is procurable in blocks only limited in size by the means of transportation at present available."

CRACK TWO-YEAR-OLDS.

Arrangements Now Being Made for a Seasonal Race.

While El Rio Rey, Tournament, Ballarat, Simola and others of California's crack stock two-year-old thoroughbreds have been mowing down the best of Eastern-bred colts in the racing season that recently closed with a final day's racing at Westchester and Jerome Park, a number of colts have been running on local tracks that, by their performances, are entitled to be classed with the best of their age that have appeared during the year, and the question of supremacy will be an open one until the picked youngsters of the coast come together.

The Directors of the Blood-Horse Association have been considering the feasibility of giving a big purse for two-year-olds, and at the approaching meeting of the Association to be held in this city within a month. They have communicated with owners of colts and have received guarantees that El Rio Rey, Racine, Flambeau, Tournament, Ballarat, Simola and others from the Ballarat and Shippes stables will be entered.

The race, if run, will be the first sensation of the year, and the best of the year, the only unbeaten two-year-olds of the year, will contest over a distance of ground greater than they have yet covered in public.

The two colts have national reputations, and are both record-breakers. Racine opened his career at the Spring meeting of the Blood-Horse Association, and made a show of the colts that started against him, winning all his races in fast time and with ridiculous ease.

El Rio Rey is pronounced by Eastern horsemen the mightiest of American thoroughbreds that have raced during the past twenty years. In his past season's racing he has been given jumps of weight and has beaten the speediest of Eastern youngsters.

Flambeau, another colt that will be entered, is owned by Senator Stanford. He is a well-developed youngster of great bone and speed, and in all his races has won second to his stable companion, Racine, and it is the opinion of a majority of horsemen who have seen the two colts race that Flambeau is the better of the pair.

Ballarat and Tournament belong to the Heart stables and have won state events in the East. They are by Hagia's imported Australian horse, Sir Modred, and were bred at the Rancho del Paso. Ballarat performed well at the commencement of the past season, but subsequently went wrong, and has but recently rounded to form. When in fine fettle he is possessed of great speed and gameness. Tournament, his stable companion, best him in the last race in which the two colts started, the pair running first and second.

The Directors of the Blood Horse Association have made arrangements with Mr. Hinchman, of the Bay District Association, by which they will have the use of that track for the next meeting.

The Fresno Association offered \$6,000 to have the races run at that place.—Examiner.

BREVITIES.

Go to Lange & Schmitt's for ranges, and cook stoves. Best assortment in the State.

Mr. Davis, Supt. of Coast Construction of the Western Union, was in Reno yesterday.

H. B. Loomis, a former Nevada newspaper reporter, was in Reno yesterday. Loomis is now agent for Sperry & Co.'s large flouring mills.

George he never never runs away, but stays with his little lot; And all he wants to say, Forget, forget him not.

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt. Every house and store should have them. Call and inspect before purchasing.

On the first page of today's JOURNAL will be found four columns devoted to architecture, with designs of buildings, and all who are interested in having a nice home will find something worth studying.

J. Westlake has established himself in the boot and shoe shop formerly occupied by Wm. Hart, opposite the Postoffice, where he is prepared to do all kinds of stylish work at the lowest prices. Ladies' fine shoes a specialty. Repairing neatly and quickly done.

CATTLE BREEDING.

A Nevada Beef Baron Says It Does Not Pay.

The Chronicle reports the annexed, but it is a little disphannous:

A cattle breeder recently remarked that the business is not remunerative and that in the next twelve months he will not be surprised to hear of the owners of large stock ranges in the State becoming bankrupt, due to the depreciation in the value of their cattle, which, on account of the scarcity of feed on the ranges, cannot be put in condition for the market without being bay fed.

He says a band was recently sold in the Eastern part of the State for only \$6 per head, but that the business is far less profitable than hay raising. The latter, he states, costs but one dollar per ton to produce, including harvesting, and has ready sale at four dollars per ton in the stack, and that hay ranchers are growing opulent while their best patrons, the cattle breeders, are in a fair way to become paupers.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Notice of Meeting.

The officers and members of Fidelity Lodge No. 4, I. O. G. T., are requested to assemble at their Hall at 2 P. M. to-day (Sunday), to attend the funeral of the late Sister Mary Steiner.
